Our Value, Vision, Mission

Values embodied in:

- Sustainability & SDGs Pillars;
- Circularity (Circular Agriculture);
- Farming the Future.

Vision:

Be a recognized inventor of Sustainable Food System in Indonesia.

Mission:

To actively represent NL's Agriculture, Nature, and Food Quality's interest in Indonesia, and build mutually strategic relations in agriculture trade, investment, and knowledge sharing between the two countries.

What do we do?

Basics:

- Agriculture include Fisheries and Forestry and related topics;
- Proactive, reactive, and creative approach;
- Bilateral, Regional, and International for a – “Think Global, Act Local!” ;
- Open to new ideas, new proposals, new solution.

Strategies LNV / Embassy

Multi Annual Strategy Plan (Embassy):

- climate and sustainable development (including food security, water management, climate smart agriculture, deforestation, palm oil)
- sustainable trade and investment (including general issues like business climate and ease of doing business, our focus sectors, responsible business conduct)

International Strategy Sustainable Agriculture (LNV); *more sustainable with more knowledge*

- strengthening the economic position of sustainably producing chains and entrepreneurs
- produce within the carrying capacity of the earth
- strengthening food security
- maintaining a strategically autonomous position

working on knowledge and innovation as a means of sustainability and economic diplomacy will primarily focus on high-quality and sustainable products, knowledge and technology

Agro-forestry

Horticulture/Dairy/Poultry

Vocational Education

Digitizing / Smart Agri

.....

2021 Work Plan

Bilateral Focus in INDONESIA:

- Strengthening G-G, B&G, and B-B relations
- Sustainable food production: Indonesian Food Estates program; commodity market development; Research & Development, particularly leading to market access and Dutch business development.
- Campaign on Circular Agriculture as well as Climate Adaptive Agriculture, followed by offline and joint activities with likeminded actors.

1. Re-establish the WGAFF platform (Working Group on Agriculture, Fishery and Forestry) by inventing more progressive, dynamic, and the “new normal” approach;
2. Finalize the bilateral MOU on Agricultural Cooperation between the governments of The Netherlands & Indonesia with a **growing focus and/or the scope of cooperation**, ranging from the Sustainable production of Commodities, Agriculture infrastructure, Circular and Smart Agriculture involving Information ICT or e-agriculture, Land and Soil Management, and others;
3. Strategic fusion between NL government, NL and Indonesian private sectors, and knowledge institutes to contribute widely in Indonesia’s programs and projects concerning Sustainable Food System, e.g. Food Estates;
4. Sector Focus -but not limited to-: Horticulture, Seeds (aligned with [“UN International Year of Fruits & Vegetables 2021”](#))
5. Subject Focus -but not limited to-: AMR, Organic/plant-based/edible Packaging, & cross-cutting of Water for Agriculture, Agriculture & Food Waste Management, Agriculture/organic waste for energy.

58 results Show: **Open/Open soon/Temporarily closed - (58)** Sort by: **Relevantie**

› Reimbursement Fixed Costs - TVL

Reimbursement of fixed costs for enterprises due to loss of turnover because of COVID-19. TVL follows the Reimbursement for economic loss due to COVID-19 programme.

[Open](#)

› FVO Partnerships - Pillar 1

Financing for companies registered in the Netherlands who want to boost Responsible Business Conduct (RBC) within their value chain with civil society organisations.

[Open](#)

› LAND-at-scale

International programme that supports actions and interventions in developing countries, to develop inclusive and sustainable land governance. Only Dutch Embassies can apply for this programme.

[Open](#)

› DHI subsidy scheme

The demonstration projects, feasibility studies and investment preparation studies (DHI) is a subsidy for SMEs with international ambitions in emerging markets and developing countries. The DHI programme helps SMEs test the feasibility of their concepts abroad, so that more Dutch companies can successfully contribute to sustainable development in these regions.
